

Make your super contributions online

To help make managing your super responsibilities easier, we now provide employers with the ability to make super contributions online through eSuper for Employers at www.accountants-super.com

To start making contributions through eSuper, you will need to do the following:

- Contact our Customer Service Centre on 1300 651 331 to choose your payment method (BPay or Direct Debit), and obtain your username and password
- Login to eSuper for Employers via www.accountants-super.com
- Complete the contributions details and lodge the payment

In addition to being able to make contributions, eSuper for Employers allows you to view your past contributions, view and change current employee details, add new employees, terminate existing employees, and update your employer details.

New bank account details

Earlier this month we mailed you details of Accountants Super's new bank account. If you contribute to Accountants Super by EFT it is important you use these new account details. If you've misplaced the letter containing the bank account details, please call our Employer Hotline on 1300 651 331.

Switching investments options online

We are pleased to advise that members of Accountants Super are now able to change their investment choices for both existing balances and future contributions online through eSuper at www.accountants-super.com

Annual statements now online

All annual statements along with the 2007 Trustee Report have now been sent. The 2007 Trustee Report is available online at www.accountants-super.com and in a recent development, members can now view their statements online via eSuper.

Changes to minimum insurance requirements

Heard about changes to the minimum levels of life insurance offered by a fund? From 1 July, 2008, your default fund must offer a minimum level of life insurance to members.

Rest assured – we already offer it...check out what's automatically available to our members.

Age of employee member	Minimum level of life insurance
20 - 34	\$50,000
35 - 39	\$35,000
40 - 44	\$20,000
45 - 49	\$14,000
50 - 55	\$7,000

If we're your default fund, you don't need to do anything.

Contributing to a different fund because an employee has exercised choice? Have your employee give you a Letter of Compliance. These letters will clarify whether his or her fund meets the minimum insurance requirements.

SMARTpension is here!

Our recently launched SMARTpension account based pension product is all about making both your employee's transition to retirement and ultimate retirement trouble-free and flexible. Most importantly, the SMART Transition to Retirement pension may allow you to retain older employees that may wish to scale back their work hours that would normally either retire or seek alternative employment.

This is provided through the use of a non-commutable allocated pension such as the new SMARTpension Transition to Retirement pension that is available to individuals who have reached their preservation age (currently 55). This allows the employee to continue working while being able to receive a pension (up to 10% pa of the pension's account balance) and contribute to super. In many cases the tax savings and increased flexibility provided by the transition to retirement strategy will be enough incentive to retain or attract the older more experienced worker.

This is certain to be an exciting product for those nearing or in retirement, so stay tuned for further information.

Like to know more about super?

If you or your employees would like to know more about super, we can help! We have dedicated consultants nationwide who can provide you with important information on issues including:

- super basics
- the different investment options available
- how to understand fees and charges
- how to use the online super services we provide

Our consultants are happy to run group based presentations or one-on-one discussions at a time and place of your choosing. Simply call 1800 651 331 to arrange.
